

Description:

This very powerful resolver-commutated 270-Volt Brushless DC Motor powers the central power drive unit for the electric thrust reversers for the world's largest and only ETRAS system.

Voltage: 270 Volts

Current: 100 Amps

Rated Velocity: 13,500 RPM

Rated Torque: 150 Inch-Pounds

Nominal Power: 32 Hp

Body Diameter: 4.0"

Body Length: 8.0"

Weight: 21 Lbs
