

## **Diesel Injection Sales & Service Appointed Full-Service Woodward Distributor**

April 25, 2005 – Woodward is pleased to announce that Diesel Injection Sales & Service Limited has been appointed the full-service distributor partner in Eastern Canada for Woodward’s industrial engine and turbine control products and systems. Included in Diesel Injection’s portfolio are Woodward electronic controls and software, power management controls, governor sales and service, diesel fuel injection parts and systems, and the APECS™ line of small engine controls.

Diesel Injection has been providing authorized Woodward service for over 30 years. This appointment and expansion of responsibilities reflects on the company’s extensive experience and expertise, and establishes Diesel Injection as the full-service distributor for Eastern Canada.

Diesel Injection is a leading solutions provider serving users of diesel engines and turbines in the marine, oil & gas, power generation, industrial and construction sectors by providing new products and quality remanufacturing services.

Diesel Injection offers experienced, factory-certified staff to service existing Woodward controls, using only Woodward OEM parts and repair procedures to insure equipment integrity. They also have an experienced retrofit and upgrade team available to provide a total control solution that will maximize equipment capability and reliability. The company is also authorized to perform warranty evaluations, training, repair and field service work for all standard Woodward products worldwide, 24/7. In addition, the company’s fuel injection systems division is a distributor for Woodward diesel fuel injection products, including the former Bryce fuel system products.

Established in 1870, Woodward has become the world’s largest independent manufacturer of energy control solutions for engines, turbines and powered equipment. The company’s innovative control, fuel delivery, and combustion systems help customers worldwide operate cleaner, more cost-effective, and more reliable equipment.

Diesel Injection and Woodward look forward to serving customers to keep equipment performing at optimum levels. Please feel free to address your needs and concerns directly to Diesel Injection at either of the company’s locations:
