

Flo-Tech Speed Control

Product Change

Flo-Tech has been an important product line for many years that Woodward has supported through many rounds of obsolescence management. Due to the volatility of semiconductor supply chain market, declining demand for Flo-Tech, and availability of F-Series as a replacement, Woodward has decided to cease the production of Flo-Tech product lines. Since the Flo-Tech Speed Control is used only with Flo-Tech, Woodward has decided to cease the production of this legacy offering as well.

Product Support Schedule

Last Time Buy – December 31, 2023

- Limited sales based on component availability

Woodward will continue to fully support the product while under its original factory warranty.

Part Numbers Impacted

The impacted active part numbers (PNs) are 8290-195 (24V FLO-TECH SPEED CONTROL) and 8290-209 (24V FLO-TECH SPEED CONTROL). Other PN's in this product family may already be obsolete.

Customer Action

Prior to December 31, 2023, contact your local Woodward representative for Last Time Buy opportunities. Beginning December 31, 2023, Flo-Tech Speed Control will no longer be available for purchase from Woodward, Inc., and repairs will not be offered after the Last Time Buy date.

Note – Component obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory or look for alternative parts when the components we use are no longer available. However, there are times when components simply cannot be obtained, and sufficient Last Time Buys cannot be made. Unfortunately, in these cases Woodward cannot guarantee the rationalization support plan.
