

## SOGAV200

### ***Product Change***

The SOGAV200 will be discontinued and removed from the SOGAV™ product family offering. The OFFSET style model with size z=200 has no market demand. Its application is limited to a single engine program. The engine OEM has decided to discontinue the SOGAV200 and has re-designed the engine fuel gas manifold to accommodate the SOGAV145 instead. The installed base of the SOGAV200 is small and can be supported by the SOGAV145. The field replacement valve plate cartridge for the SOGAV200 will also be discontinued.

### ***Product Support Schedule***

Last Time Buy – Oct 1, 2023

- Unlimited sales (modified to limited if driven by component obsolescence)
- Not recommended for new designs

Last Time Buy Shipment – Oct 1, 2024

- Limited sales of accepted orders by LTB date

Product Inactivation – Oct 1, 2024

- Replacement product. For upgrades, contact Woodward services team.

Woodward will continue to fully support the product while under its original factory warranty.

### ***Affected Units***

Item No	Description	Extended Desc
8402-274	SOGAV200	
8923-1800	KIT	SOGAV 200 Valve Plate Kit

### ***Replacement Options***

SOGAV145 with p/n 10-029-751 is the replacement for the SOGAV200. This requires the engine manifold to be modified in combination with the tuning of the engine control system. Replacing SOGAV200 with SOGAV145 is therefore only to be done by the OEM or with support of the OEM.

### ***Customer Action***

SOGAV200 and the associated valve plate kit has been available to the engine OEM only. Any retrofit of existing engines with SOGAV145 needs to be coordinated by the OEM.

Note – Component obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory or look for alternative parts when the components we use are no longer available. However, there are times when components simply cannot be obtained and where sufficient last-time buys cannot be made. Unfortunately, in these cases Woodward cannot guarantee the rationalization support plan.
