

## **LSIM Product Discontinue Notification and Last Time Buy**

---

### ***Product Change***

---

LSIM (Load Share Interface Module) was designed to interface Woodward GCP-30 series genset controls via CAN bus with Woodward EGCP-2 load share networks. Due to lack of obtainable components and already obsolete GCP-30/EGCP-2 controllers, Woodward has decided to rationalize LSIM.

### ***Product Support Schedule***

---

To help support installed base and clear-off inventories, Woodward offers 05 LSIM converters at the special price of \$3,295 (-20% from current list price). Orders for the Last Time Buy can be placed until 30-Apr-2024. Woodward will ship LTB quantity until 31-July-2024. After this date Woodward will stop production of LSIM.

Woodward further commits to the following support plan:

Now – 30-Apr-2024

- Limited sales up to 05 units (first come, first serve)
- Unlimited repair

01-May-2024 – 30-Apr-2025

- Limited-service stock sales based on available inventory
- Limited repairs based on parts availability
- Product inactivation in Woodward ERP system (on 01-May-2025)

### ***Affected Unit***

---

<b>Item No</b>	<b>Description</b>	<b>Extended Desc</b>
<b>8239-082</b>	Control	LOAD SHARING INTERFACE MODULE (LSIM)

### ***Customer Action***

---

Prior to 30-Apr-2024, contact your Woodward representative for placing last-time-buy order. After this date, there will be no further opportunities for placing new orders.

Note – Component obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory or look for alternative parts when the components we use are no longer available. However, there are times when components simply cannot be obtained and where sufficient last-time buys cannot be made. Unfortunately, in these cases Woodward cannot guarantee the rationalization support plan.
