

## Woodward Industrial Electric Liquid Fuel Valves

### Product Change

The Woodward Electric Liquid Fuel Valve family for industrial gas turbines will be removed as a standard product offering. The low sales volume of these valves has made it impossible for Woodward to maintain them as a viable business opportunity.

### Description

Beginning January 1, 2023, these items will no longer be available for purchase from Woodward, Inc. Woodward will offer Repair and Overhaul services for these items until September 30, 2024, when possible and based on part availability, along with full support for the product while under its original factory warranty.

Unfortunately, Woodward cannot offer any direct replacement options to our valued customers for this product family; however, we can offer an electrically actuated product family with far superior performance to this hydraulic version. Should you wish to pursue an electric version, please contact your local Woodward representative. We deeply regret the need to take this action and empathize with the difficulty that this decision may have on our customers.

### Affected Units

The following list may not be all encompassing of all item numbers offered by Woodward since the product was released, and is only provided here as a reference for the latest versions currently available.

## Customer Action

Prior to the effectivity date, contact your local Woodward representative for Last Time Buy opportunities for any of the item numbers listed in the table(s) above. After the effectivity date, there will be no further opportunities for these products from Woodward.

We recognize that many of the customers utilizing this product family may only have access to the OEM item number. Each Woodward product includes an external nameplate that should be visible while the product is installed. The nameplate includes both the OEM Item Number as well as the Woodward Item Number referenced in this document. If you are unsure if this Product Change Notification affects your installation, please consult your local Woodward representative.
