

Woodward Hydraulic IGV, VGV, and VSV

Product Change

The Woodward base-mount hydraulic actuators used primarily as Inlet Guide Vane, Variable Guide Vane, and Variable Stator Vane actuators for industrial gas turbines are being removed as a standard product offering. The low sales volume of these actuators has made it impossible for Woodward to maintain them as a viable business opportunity.

Description

Woodward will continue to accept limited purchase orders for these actuators until August 1, 2024, with deliveries no later than August 1, 2025. Beginning August 2, 2025, these items will no longer be available for purchase from Woodward, Inc. Woodward will offer repair and overhaul services for these items until September 30, 2030, along with full support of the product while under its original factory warranty.

Unfortunately, Woodward cannot offer any direct replacement options to our valued customers for this product family; however, we can offer an electrically actuated product family with superior performance to this hydraulic version. Should you wish to pursue an electric version, please contact your local Woodward representative. We deeply regret the need to take this extreme action and empathize with the difficulty that this decision may have on our customers.

Affected Units

The following list may not be all encompassing list of item numbers offered by Woodward since the product was released and is only provided here as a reference for the latest versions currently available.

Item No	Extended Desc
9908-1120	VGVA, SGT5, 2.576 STROKE, 4.00

9908-803	VGVA, SGT5, 1.862 STROKE, 4.00

Customer Action

Prior to the effectivity date, contact your local Woodward representative for Last Time Buy opportunities for any of the item numbers listed in the tables above. After the effectivity date, there will be no further opportunities for these products from Woodward, Inc.

We recognize that many of the customers utilizing this product family may only have access to the OEM item number. Each Woodward product includes an external nameplate that should be visible while the product is installed. The nameplate includes both the OEM Item Number as well as the Woodward Item Number referenced in this document. If you are unsure if this product change notification affects your installation, please consult your local Woodward representative.
