

Obsolete SPM-A Synchronizer 9900-444

Product Change/Improvement

SPM-A Synchronizer part number 9900-444 will be obsoleted due to lack of available components.

Product Support Schedule

To help support existing customers with an installed base, Woodward is offering the last three 9900-444 units on a first-come, first-serve basis. After they are sold, this part number will be inactivated in Woodward's ERP system. Woodward will continue to fully support the product while under its original factory warranty to the extent that replacement components are available.

Affected Units

| Item No. | Description |
|----------|--------------------|
| 9900-444 | SPM-A Synchronizer |

Replacement Product

There are no drop-in replacements. However, Woodward will continue to produce two alternate SPM-A Synchronizers. Please contact Woodward or your SPM-A Synchronizer supplier to discuss these items as a replacement for your existing 9900-444 SPM-A Synchronizer.

| Item No. | Extended Description | Frequency | Phase Angle | Voltage Matching |
|----------|-----------------------------|-----------|-------------|------------------|
| 9907-028 | SPM-A STD NON-VOLTAGE MATCH | 50/60 Hz | ±10° | No |
| 9907-029 | SPM-A STD VOLTAGE MATCHING | 50/60 Hz | ±10° | 1% |

Customer Action

Contact your Woodward customer service representative to place a Last Time Buy order. After these units are sold, there will be no further opportunities to place new orders.

Note – Component obsolescence from electronic manufacturers can present a challenge to post-life support plans. Woodward strives to hold inventory or look for alternative parts when the components we use are no longer available. However, there are times when components simply cannot be obtained and where sufficient Last Time Buys cannot be made. Unfortunately, in these cases Woodward cannot guarantee the rationalization support plan.
