13-Jul-2021

Declaration of RoHS-10 exclusion on application of easYgen-3000 series genset controllers

Part numbers: In Appendix A below

Woodward Inc. position on RoHS Directive 2011/65/EU (including Delegated Directive 2015/863/EU) regarding restrictions on the use of certain hazardous substances in electrical and electronic equipment sold in the European Economic Area and its application concerning Woodward products intended for exclusive use as spare parts or in applications listed in Article 2.4 of the Directive.

The products mentioned in Appendix A below are intended to be sold and used only in the following applications:

a) as spare part i.e. used as repair, updating or upgrading of EEE (as defined in Article 3(27) of the Directive) that either was excluded from the scope of the Directive at the time of placing on the market (as defined in Article 4.4(e)) or which benefited from an exemption and which was placed on the market before that exemption expired (per Article 4.4(f)),

b) as equipment, which is specifically designed, and is to be installed as part of another type of equipment that is excluded or does not fall within the scope of the Directive. The product can fulfil its function only if it is part of that equipment, and which can be replaced only by the same specifically designed equipment and therefore fulfills the requirements stated in Art.2.4(c) and as such is also excluded from the scope of the Directive.

For details related to particular product(s) please look in the corresponding manual – 37532, 37528, 37531, 37534
